

## Fee Waiver

The Organizing Committee of the **IEEE AIM 2023** Conference and the **IEEE ITALY SECTION** decided to offer **6** registration fee waivers for this year's Conference, to support **authors** for whom the registration fee represents a barrier to participation.

To be eligible, the author must belong to either of the following groups:

- **Authors** from developing nations (see the IEEE list of countries eligible for reduced registration fees <https://www.ieee.org/membership/join/remember-countries.html> )
- **Authors** with the status of **student**. In this case, please provide a written statement of your supervisor or a faculty member of your institute, or PhD program (or similar) confirming that you do not have financial support.

Fee waivers will be granted on **a first-come-first-served basis**, subject to budget availability.

All applications will be reviewed by two members of the organizing committee.

Applications are due by **December 20, 2022** at **11:59 pm CET**.

Please note: **This waiver covers the conference registration only.**

You can apply for a fee waiver by sending your motivated request to [info@aim2023.com](mailto:info@aim2023.com)
